

Customer Journey Map

AI-Assisted Smart Budget Planner

Phase	Stage 1 — Discover	Stage 2 — Plan	Stage 3 — Review / Act
Actions	Open PocketSmart AI and choose planner.	Enter budget and preferences; submit request.	Review itemized plan, total, remaining amount and search links.
Touchpoint	Web interface / planner selection.	Planner form and FastAPI endpoint.	Results page, history and external search links.
Customer Thought	"Can this help me plan?"	"Will this fit my budget?"	"I can see exactly what was allocated."
Customer Feeling	Curious / hopeful	Focused / cautious	More informed / ready to act
Improvement Opportunity	Explain planner purpose clearly.	Validate inputs and keep budget cap visible.	Show history and clear links; explain that prices are illustrative.

Journey applies to Home, Party and Jewelry planners, with the Jewelry journey additionally supporting an optional outfit image.
